Partners Med B

January 17, 2005

Dear Esther:

Medforce Scan is a great asset to our company. Our employees find it is very convenient, user friendly, and allows easy access to our medical records without the need to manually retrieve paper records. The constant access to our records that is required throughout the workday is done without needing to leave our desks.

Your support staff has been great in assisting us with any updates and answering any questions. They are very friendly, helpful, and professional.

Sincerely,

Wendy Burkholder
Assistant Administrator
