This is a letter of recommendation for the organization known as MedFORCE Technologies, Inc. My name is Gary Williams and our organization has been using MedFORCE for about six months now. I have found the program to be very helpful to us. It is easy to install, setup and use. Any time I have needed help with a problem, the staff at MedFORCE have always been great at helping resolve the issues that we have encountered. The service is prompt, courteous and the staff is knowledgeable about the software. The product is easy to learn, easy to use and so flexible that we can use it to satisfy our particular needs. It has many many features and the security on the system is fantastic. Needless to say, we are very pleased with the purchase of MedFORCE and the service provided after the sale. This organization and its software are highly recommended.

Sincerely,

Gary S. Williams
