

Do you spend hours copying/blacking out EOMB information to comply with HIPAA to submit claims for coinsurance to secondary payors? Are you still manually handling appeals and redeterminations? Have you ever missed the 120-day timely filing on your denials? If you answered YES to any of these questions, consider the savings you'll achieve by using MedFORCE Denial and Reimbursement Manager. The D&R Manager offers powerful tools to analyze your denials, downsize your DSO's and create redetermination cover sheets for follow-up with supporting documentation attached.

- Manually import your ERNs or create a scheduled task to automate the import
- Import ERNs from all available payors
- Patient-specific EOMBs stored in individual patient files
- Analyze denials with detail and summary reports
- D&R reports can be automatically emailed to you on a schedule, or have them saved in MedFORCE for instant retrieval
- Create appeal/redetermination cover-sheets
- Easily track the quantity, quality and success of your appeals/redeterminations
- Sort ERN analysis by highest dollars
- Monitor, track and compare effectiveness of employee work

### Top 10 Denial Codes Ranked by \$ Billed

*“MedFORCE Scan is so easy to use we actually have employees using it on their first day at work! MedFORCE has become an invaluable tool.”*

*Deborah Lester  
VP Operations/Administration, UroMed*

For every million dollars in sales that a company earns, someone spends two to three hours per day copying EOMBs and tracking down denied claims. That translates to a cost of no less than \$7,000 per year and does not even include bad debt write-offs for claims that were missed!

For a FREE demonstration of D&R Manager, call our expert sales staff today, and see how your company can work more efficiently, saving time and costs daily.
