Referral Management App

Streamline referral handling

Getting and retaining new business is critical to success in the healthcare field. Today's referral turns into tomorrow's repeat customer. The Referral Management App is a turnkey, pre-configured workflow solution that gives you the tools you need to properly handle referrals and ensure a healthy pipeline for your business.

Whether you receive referrals through fax, email, phone or walk-ins the Referral Management App ensures they get worked accurately, completely and promptly.

Consolidating all of your referrals into a central, standardized resource allows for easy assignment of tasks and better oversight into the referral pipeline. Automation minimizes effort and opportunity for error, and alerts and escalations make sure nothing falls through the cracks.

Nurturing your referral pipeline isn't just about securing revenue today, it's about ensuring your livelihood far into the future.

Gain control of your referral pipeline:

- Streamlines and tracks the referral process
- Provides oversight and reporting
- Uses automation to minimize effort and opportunity for error
- Escalations and alerts keep you on time
- Helps identify top referral sources
- Can be used with any Fax Server or Document Management software
- Saves time and money while helping you grow your business
