

Fax Service

Straightforward, enterprise-level electronic faxing

Don't overpay for faxing. Medforce offers easy-to-use electronic faxing at low rates. Your company can have unlimited fax capacity for your business-critical communications, with no servers, phone lines or fax machines to maintain.

Get vital information instantly. Inbound fax messages can be delivered directly to **ContentCenter** or **CommandCenter** or sent straight to your email. Outbound faxes can be sent from Medforce software or any other desktop application. With cloud-based backup/redundancy and our never-busy technology, you can have confidence you'll always be able to receive mission-critical documents when you need them.

Already using electronic faxing, but want to take advantage of our low rates? It's easy to switch. You can transfer your existing fax numbers and import your address book for quick reference. We'll walk you through every step.

- Send and receive faxes without leaving your desk
- Improve the security of faxed information
- Take advantage of unlimited capacity
- Set your own monthly minimum
- Receive email confirmation for all sent faxes
- Avoid extra investment in hardware, software or telephone lines

Take control of your faxing with Medforce's Fax Service
