RemitCenter
Denial management that improves the bottom line

Medforce Remit Center gives you the insight and tools you need to fully work a claim, with all needed documentation just a click away. Use claim analytics tools to examine your denials, downsize your DSOs and work claims and denials efficiently.

Stop spending hours copying and distributing EOMBs or manually handling appeals and redeterminations. **Remit**Center allows you to import ERNs, automatically stores patient-specific EOMBs in individual patient files, and will create redetermination cover sheets for follow-up with the supporting documentation attached.

Use the built in dashboard and analytics tools or have **Remit**Center reports automatically emailed to you. Easily stay on top of your claims management and never miss the timely filing deadline on your denials again.

Identify denial trends, work appeals and increase cash flow

- Automatically or manually import ERNs
- Analyze denials with detail and summary reports
- Track the quantity, quality and success of appeals/redeterminations
- Sort ERN analysis by highest dollars
- Use insights to improve future claim submissions
- Monitor, track and compare employee effectiveness

You work hard for your money upfront.
RemitCenter ensures you don't have to work hard for it a second time.
