

ZipMit

Complete esMD to ease CMS document requests

Medforce ZipMit ends the audit headache by allowing you to electronically submit Medicare-related documentation for audits, prior authorizations, and appeals. With **ZipMit**, you have a direct portal to transmit your documents to review contractors swiftly and safely from your desk.

ZipMit is available 24/7 to submit and track CMS related documentation straight from your web browser. With a click of a button you can deliver necessary documentation for audits, additional documentation requests (ADR), PMD prior authorization, advanced determination of medical coverage (ADMC) and first level appeals. You receive confirmation of receipt and a transaction ID that serves as your proof of submission.

Medforce was one of the first CMS-certified Health Information Handlers (HIH). We participated in the beta testing of CMS's esMD network and continue to expand **ZipMit** as new submission types become available.

Stop sending important claims information into a black hole

- Faster payments
- Reduce denials due to timely filing
- Track status instantly, any time of day
- Get PMD Prior Auth results right on screen
- End worry over missing or incomplete documentation
- Save time and money
- Fully HIPAA compliant

No more faxing or mailing and wasting time chasing answers.

End the Medicare documentation headache with **ZipMit**.
